DISCLOSURES OF INTEREST

Agenda Item 3

There were no disclosures of interest.

CONFIRMATION OF MINUTES

Agenda Item 4

The report was received [*RCB2405/02 refers*] and no further discussion held.

Resolved: (Mr Wallis/Mr Oosten)

THAT the Raglan Community Board confirms the minutes as a true and correct record for the meeting held on Wednesday, 27 March 2024.

CARRIED

RCB2405/03

PUBLIC FORUM

Agenda Item 5

There were nine (9) members of the public present for the meeting.

Freedom campers

- A resident from James Street was present at the meeting to discuss Freedom Campers and the bad experience the street had over the summer. It was noted that Freedom Camper numbers had doubled over the summer and that some residents reported campers stealing vegetables from their gardens and water from their outside taps. The residents had also witnessed arguing amongst the campers. The resident noted that they unfortunately missed the consultation period when it was open.
- The resident requested the Raglan Community Board (RCB) take this issue to the Waikato District Council, and advise them that the consultation didn't go well, and suggested that Council look at long term solutions for Freedom Campers like toilets, skipbins and water.
- It was noted that 80% of the campers were not within walking distance of a toilet.
- A query was raised in relation to the Jane Street residents speaking directly to the campers about the issues. In response, it was noted that no residents had spoken to the campers directly.
- A query was raised in relation to a submission that RCB put forward, it was noted that the board submitted a response to central government via the consultation process with a number of recommendations.
- Discussion ensued and some of the key topics considered including, enforcing and monitoring regulations, engagement with campers, reimplementing a freedom camper ambassador and platforms for sharing freedom camper spots.

- Confirmation was sought and received in relation to bylaw review timeframes and it was noted the Freedom Camper review was due 20 November 2028.

Bus update

- A resident was present at the meeting to request an update on bus services. It was noted that another township (Cambridge) had approximately 20 buses running and inquiries were made as to what the Raglan Community Board could do to get more bus services implemented and rolled out.
- It was noted that an increase in the frequency of service encourages higher patronage which enables a commuter status.
- Confirmation was sought and received on the submission process for the Waikato Regional Council's (WRC) Public Transport Strategy – WRC will take over the services in its entirety.

Swimming pool at Rangatahi

- A resident was present at the meeting to request an update on the Rangatahi Swimming Pool Project. It was noted that the Raglan Community Board had provided a letter of support to the project, with the proviso that in regard to construction and maintenance, there was no cost to the ratepayers.

REPORTS

Xtreme Zero Waste – Te Uku Project

Agenda Item 6.1

The report was received [*RBC2405/02 refers*] and the Council's Waste Services Manager together with representatives from Xtreme Zero Waste were present at the meeting the following discussion was held:

- Volume of waste: a survey was conducted over eight days, no persons were arriving during the daytime when manned, however, people were turning up and illegally dumping waste over night.
- Additional plastic and cardboard cages along with bottle lid containers had been installed, along with a hoop lid and scrim fence to stop loose litter flying into the stream/school.
- The Collections Manager provided some figures on street bins/bags pre/post covid and tonnage in landfill, it was noted there is a 50% increase over the summer months.
- Discussion ensued with some of the key topics considered including illegal dumping, location of users, type of rubbish being dumped, cost of items being illegally dumped and contracting of street bins.
- The Waste Services Manager tabled a document and provided an overview of the cost of services and a breakdown of the area serviced, contract management and current processes and new initiatives. She noted there were plans to build a resource recovery center, however, planning/budgeting was in the early stages.

- Discussion ensued with some of the key topics considered including central government's container return scheme, emphasis on business owners to install bins outside premises, Te Uke processing versus Te Mata processing, and potential new concepts such as leasing land from farmers.
- The Chairperson thanked the representatives from Xtreme Zero Waste for taking the time to present at the meeting.

ACTION: Waste Services Manager together with Zero Xtreme Waste to create a graph of the location of users by day and provide to the board.

Discretionary Fund Report

Agenda Item 6.2

The report was received [*RCB2405/02 refers*] and it was noted the board's preference was to defer the resolution until the next meeting and attempt to contact Raglan Lions Club one more time to ascertain if the invoice still required payment or obtain written confirmation they no longer required funds. If no confirmation was received, the board would resolve to put the money back into the discretionary fund.

Discretionary Fund Applications

Agenda Item 6.3

The report was received [*RCB 2405/02 refers*] the following discussion was held:

Ruapuke Beach Care Group – pest control/native plants

- A representative from the group noted that the pest control measures together with the native plants would help ensure native birds and other wildlife such as lizards would thrive in the area, and that cameras would help with tracking the wildlife.
- A query was sought in relation to other funding sources, it was noted the group had not applied to other funding sources yet. It was noted that the group could fundraise from other areas eg Regional Council and Meridian.
- A brief overview of the purpose and use of the cameras, data collection and trap placement was provided.
- Discussion ensued with some of the key topics considered including erosion planting, previous funding, direction of applicants (part of the funding solution) and what equipment was a necessity.

Resolved: (Mr Bains /Mr Wallis)

THAT the Raglan Community Board:

- a. **partially fund an allocation of \$1,000.00 (plus GST if any) from their Discretionary Funding account to:**
 - i. **Ruapuke Beach Care group,**
 - ii. **Pest control materials and native plant.**

CARRIED

RCB2405/04

Works, Actions & Issues Report: Status of Items

Agenda Item 6.4

The report was received [*RCB2405/02 refers*] and the following discussion was held:

- **Civil Defence and Raglan Community Response Plan:** no further update was given Item to stay on the Works, Actions & Issues report.
- **Sound Splash Update:** The Chief Financial Officer noted a team meeting had taken place to discuss ticketing options, next step would be a workshop with the Raglan Community Board. Item to stay on the Works, Actions & Issues report.

- **Wharf Structural Repairs, Pontoons, and Walkways:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Wi Neera Walkway:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Manu Bay Breakwater:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Holiday Park - Main Kitchen and Laundry Refurbishment:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Holiday Park - Stormwater, Water, and Electrical Infrastructure Upgrade:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Harbour Beacon Replacement:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Art Centre Carpark:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Wainui Beach Car Park:** No further update was provided. Item to stay on the Works, Actions & Issues report.
- **Papahua Recreation Reserve Car Park:** No further update was provided. Item to stay on the Works, Actions & Issues report.

Enhanced Annual Plan Update

Agenda Item 6.5

The report was received [*RSB2405/02 refers*] and the following discussion was held:

- The Chief Financial Officer provided a brief recap on Stripped valuations and new dates. She noted that submissions had closed and the Council had received over 300.
- Hearings were scheduled for 14 & 15 May 2024, and deliberations were scheduled for the beginning of June.

Chairpersons Report

Agenda Item 6.6

The report was received [*RCB2405/02refers*] and no further discussion was held.

Councillors Report

Agenda Item 6.7

The report was received [*RCB2405/02refers*] and no further discussion was held.

Board Members Report

Agenda Item 6.8

No further updates were provided.

There being no further business the meeting was declared closed at 2.52pm.

Minutes approved and confirmed this day 2024.

Mr C. Rayner
CHAIRPERSON

To	Raglan Community Board
Report title	Discretionary Fund Report to 29 May 2024

Amount of funding you received from Waikato District Council

\$ 1954 - 00

How the funding received was spent

Surfing Exhibition upgrade:

Custom made macrocarpa surfboard rack

New labels and information panels

NOTE:

- Provide receipts or bank statements for all associated costs.
- Tax invoices not acceptable.
- Please make sure that all receipts are clear and readable, *unclear* accountability will be returned.

When did your event/project take place?

2024 - and ongoing

Comment on the success of your project and describe the benefits to the community

(Please provide photo documentation of project undertaken)

The community and visitors will learn more about the surfing history of Raglan Whaingaroa through the extension to the existing surfboard display rack, which has enabled several more surfboards to be displayed from private collections, all with a provenance to the Raglan Whaingaroa area. These surfboards are on short-term loan to the Museum, and it has been a great way to engage with the surfing community to share the history. The information panels and labels for the surfboards, framed photos and t.shirts have been updated and replaced, with consultation from the long time surfers of Raglan Whaingaroa.

I hereby declare that the information supplied here on behalf of our organisation is correct. We understand that the information supplied in this application will become public information. We consent to the Waikato District Council collecting the personal contact details provided in the project report and using these details. Raglan Area School
Te Kura A Rohe O Whaingaroa

13th May 2024

RE: Application for Funding for Rangatahi Programme

Kia ora Lianne

My name is Betty Diprose. I'm the guidance counsellor at Raglan Area School. One of my roles at kura is to work with young people who have been identified as being mentally and emotionally at risk and/or who see themselves as socially not fitting in with other mainstream students. This may be due to neuro or gender diversity, family trauma or other factors that place these students on our 'at-risk' radar. One of the programmes I have been trialling over the last year is running a Dungeons and Dragons group for these students in the Year 9-11 age group. This is a table top venture role playing game that seems to work really well with this cohort of rangatahi.

The game is run by a DM (Dragon Master) who presides over the game, creating imagination based 'campaigns', applying rules and consequences for decisions the players make and generally keeping things safe for participants. It's in this safe social space that young people can make positive connections with other like minded young people, practise social skills such as respectful communication and managing feelings along with wonderful opportunities for creative thinking, peer mentoring and leadership. The DM we have had in the past is teacher trained and has a particular skill in customising the game to further enable specific social skills to be practised in the role-playing context. A couple of the students who have been involved in the programme over the last year are also getting close to being able to take on the role of the DM but for this to happen the students need another term or so of being mentored by the experienced DM.

There is a cost involved in accessing this DM. Last year we were able to access funds through the DHB's Community Suicide Postvention Response Service. Due to that funding no longer being available this year, families are fronting up with the main cost and the kura is also making a contribution, however, there is still a shortfall - mainly to do with the DM's transport costs (he travels to and from Hamilton).

We would appreciate your consideration in supporting this initiative financially. A contribution of \$500.00 would enable the programme to run over term two. A contribution of \$1000.00 would get us to the end of term three. This would be enough time for our DM trainee students to be further mentored by the DM, with the goal of them taking over leading the group thereon.

If you have further questions or queries, please feel free to contact me either through email or phone. My details are below. Looking forward to hearing from you.

Ngaa mihi

Betty Diprose

Raglan Area School Guidance Counsellor

To	Raglan Community Board
Report title	Works, Actions & Issues Report: Status of Items June 2024
Date:	19 June 2024
Report Author:	Karen Bredesen, EA to the General Manager Service Delivery
Authorised by:	Alison Diaz, Chief Financial Officer

1. Purpose of the report **Te Take moo te puurongo**

To update the Raglan Community Board on actions and issues arising from the previous meeting.

2. Staff recommendations **Tuutohu-aa-kaimahi**

THAT the Raglan Community Board receives the Works, Actions & Issues Report: Status of Items for June 2024.

3. Attachments **Ngaa taapirihanga**

Attachment 1 – Raglan Community Board Actions & Issues Register

	Actions	To Action	Update/Response
1.	Xtreme Zero Waste – Te Uku Project Waste Services Manager together with Zero Xtreme Waste to create a graph of the location of users by day and provide to the Board.	Waste Services Manager	Completed – Democracy circulated report.
2.	Civil Defence and Raglan Community Response Plan <u>February Update:</u> The Board will organise a community meeting about Civil Defence in the coming months.	The Raglan Community Board	
3.	Sound Splash Update The Chief Financial Officer to circulate possible dates with Board members 10-14 June 2024.	Alison Diaz, Chief Financial Officer	An appointment has been circulated for the 14 June.
4.	Privet <i>To remain on schedule</i>		
5.	CCTV Better Off Funding Update	Asanka Meththa, EPMO	Working with the business owner on hashing out the MOU details.
6.	Greenslade Road Reserve Playground (PR-21105)	Asanka Meththa, EPMO	Working with Ed McVicar on a market analysis to get a nature play design.
7.	Raglan Community Board Plans Meeting was booked for 16 May 2024.	Mr Rayner	

	Actions	To Action	Update/Response
8.	Implementation of Funding Rounds	Mr Wallis	
9.	Stormwater Management Committee Consent for stormwater states there must be a Stormwater Management Committee, however, due to lapse in time/staff changes more information was required.	Mark Curtis	The Waters team have confirmed that they will program the appropriate meetings and discussions, utilising the Raglan Community Board, Water Governance Board and Waikato Regional Council.

Further Information:

- If you have noticed a problem in our district that requires our attention (roading, waters, animals, litter etc.), or have questions regarding one of our services (refuse, recycling, billing etc.) you can **log a request via our online Report it tool**. Please do **NOT** contact the Contractor directly.

Capital Projects Update (As at 4 June 2024)

Raglan Wharf Structural Repairs, Pontoons and Walkways

All work is now complete with the opening ceremony held on Friday 3 May 2024.

Before and after

Wi Neera Walkway

Sea Wall repairs were completed in November. Arborist work has been completed to remove several low hanging branches. Watercare have also completed the replacement of the watermain feeding across to Papahua.

Contractors have now completed installing scaffolding to allow for footpath preparation to be undertaken safely. Existing footpath has been excavated and removed from site. Earthworks in preparation for concrete pours are underway. The 2.8m footpath and balustrade will complete by the end of July 2024.

Extent of compound and works

Temporary scaffolding to allow safe working

Excavations as part of the preparation for concrete pours. Local arborist has been onsite several times assisting the Contractor when small roots have been found. Note the blue pipe is Watercare's new watermain feeding across to Papahua.

Greenslade Rd Reserve Playground

Following a letter drop survey, the community have clearly indicated that they would prefer a nature play area rather than a traditional playground at this location. The project will be scoped for delivery in 2024/25.

Manu Bay Breakwater

Tim the facilitator at Collaborative Solutions is organising a half-day *Options Assessment - Workshop 4* meeting with the stakeholder representatives in July to discuss the reports.

Raglan Holiday Park

Storm Water and Roading Upgrade

Designs have been finalised. We're working through consenting and procurement before a contract can be awarded. Works expected to commence later this year.

Electrical infrastructure and Water infrastructure Upgrades

Planning and design continue for the electrical and water upgrades.

Admin/Laundry building

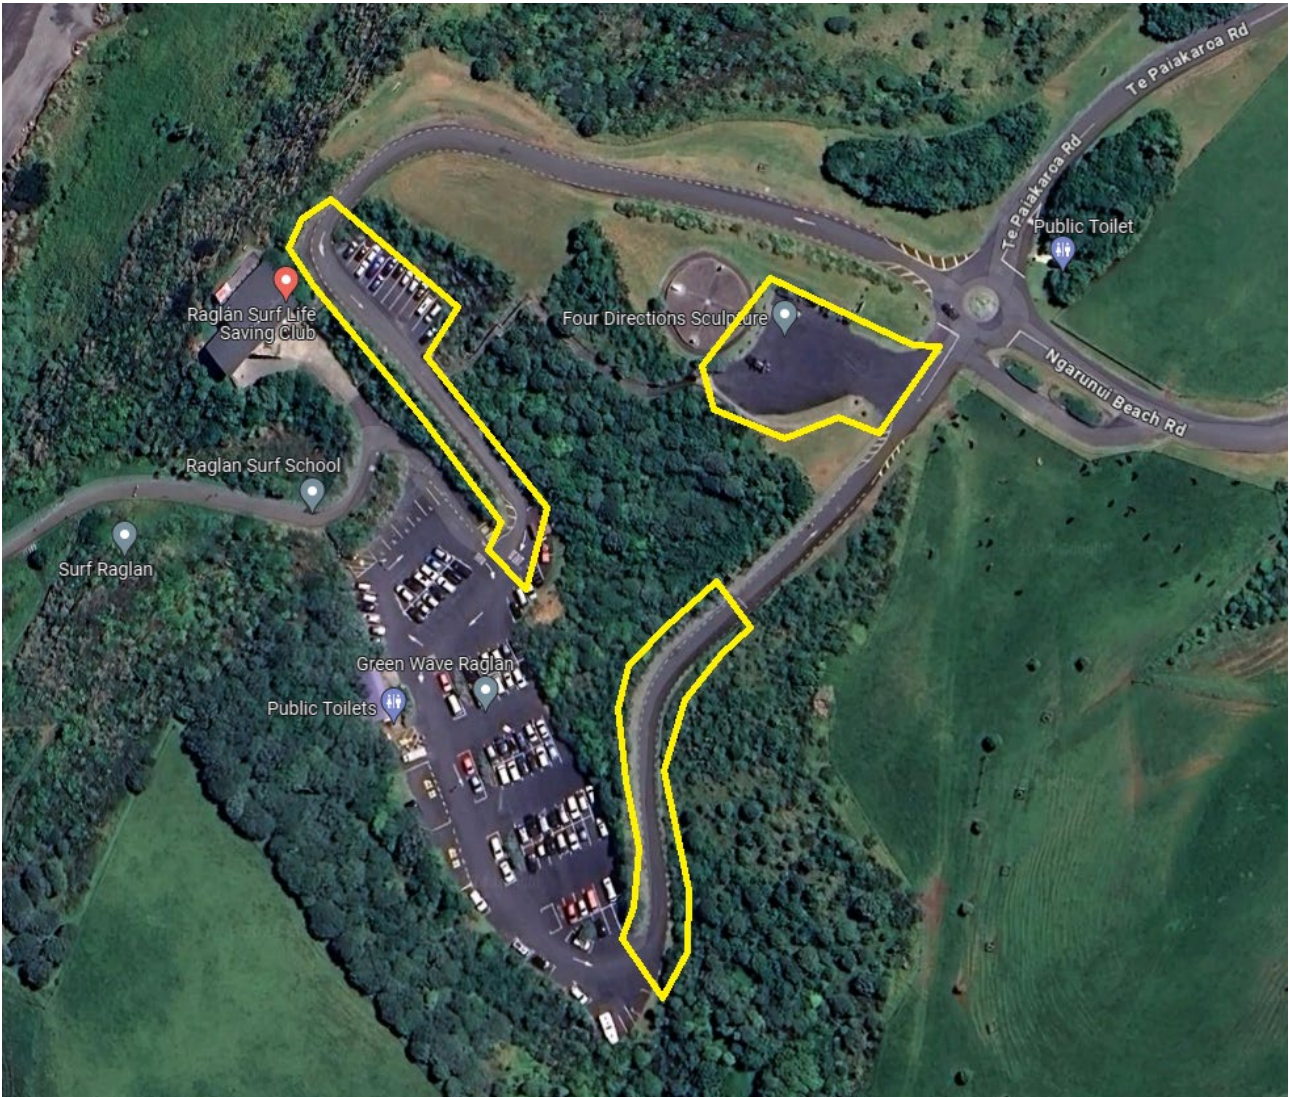

Planning and design continue for the admin/laundry building upgrades.

Wainui Beach Car Park Repairs

Three separate areas within the Carpark have been identified for repairs (Surf Club Parking, One Way exit up the hill, and the top carpark by the roundabout).

Works have been awarded to a Contractor and will be completed in the coming months, sequencing will see the Carpark open at all times.

Timings TBC with an update to Cr Thomson, Surf Club and associated businesses once known.

Papahua Recreation Reserve - Roadworks

The road between Papahua Campground and the end car park (excluding boat ramp parking) will be repaired and widened in the coming months. Timings TBC with an update to Cr Thomson, Papahua Camp once known.

To	Raglan Community Board
Report title	Wastewater Network CCTV Update
Date:	10 June 2024
Report Author:	Mathew Telfer, Watercare

1. Purpose of the report **Te Take moo te puurongo**

To update the Raglan Community Board on the Wastewater Network CCTV workstream.

2. Staff recommendations **Tuutohu-aa-kaimahi**

THAT the Raglan Community Board receives the Wastewater Network CCTV Update report.

3. Attachments **Ngaa taapirihanga**

Attachment A	Raglan Community Board update CCTV 2024
Attachment B	CCTV Summary Report Map 3

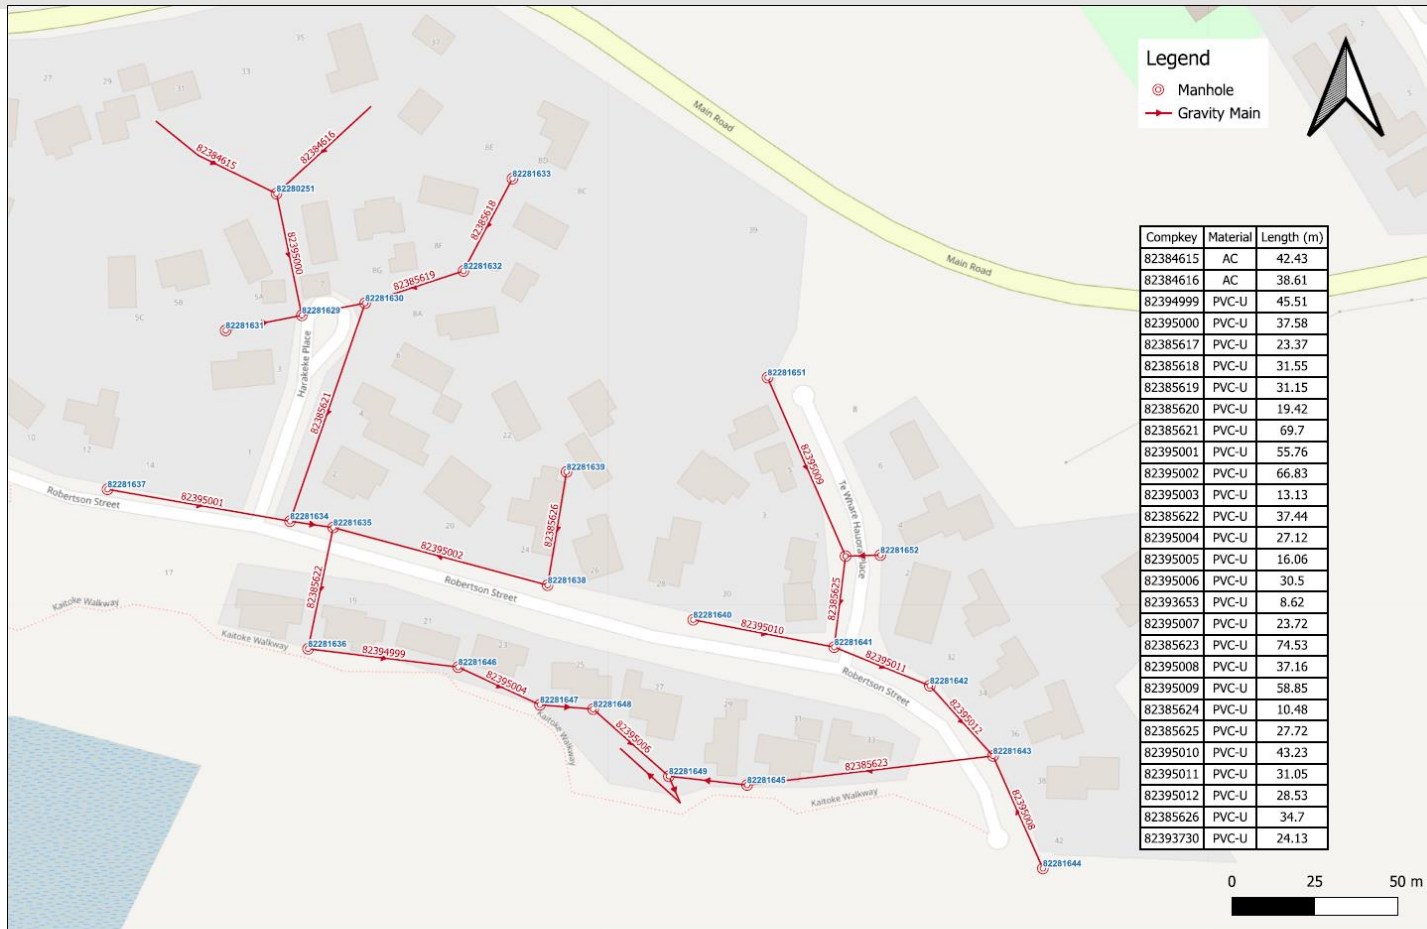

Community Board meeting Raglan CCTV

June 2024

Overview

- We CCTV the Raglan Wastewater network once every 5 years.
- The work includes any pipe older than 8 years
- Any corrective work identified is planned and completed
- The information supports further analysis of the network's operation, including degradation and capacity.
- There are 25 maps covering Raglan
- Each map has an associated report investigation
- We followed the recommendations of the report.
- The work started in August 2023 and continues now with corrective work as we go.

The types of issues we find

39 The repairs

- The repairs were either completed by our contractor doing the CCTV including root cutting or minor repairs
- More complex repairs were completed by the Watercare team and specialised contractors.

Classifications:	System:	Sewer – Map 3	Asset Type:	Site Drainage

Executive Summary

The following is a summary of the findings from the CCTV work conducted in

The CCTV pipe inspection was undertaken to determine long term planning in accordance with the *New Zealand Pipe Inspection Manual (3rd Edition)*, which states;

3 rd Edition New Zealand Pipe Inspection Manual		
Purpose of CCTV Programme	Recommended Analysis	Comments
To identify the general condition of the network for long term planning	Carry out structural scoring and determine general condition of pipe network <ul style="list-style-type: none"> Identify any pipes that may need immediate attention and review CCTV inspection detail. Estimate remaining life of pipe network. Determine long-term asset management strategies and budgets 	Pipes that may need immediate attention and require the CCTV inspection to be reviewed in details may include: <ul style="list-style-type: none"> Peak scores greater than 50. Pipes with high mean scores greater than 3. Pipes with Pipe Collapsed (PX) defects. Pipes with Tomo (TM) defects.

Insight CCTV-Jetting Ltd

Pipeline Surveys & Assessments

24 Hours: 027 545 6668

The following tables are a summary of all the mains that were inspected, with scoring as per the Pipe Inspections Manual. The summary then details the problems identified during the inspections, with subsequent recommendations. This document condenses the CCTV log sheets, and has been compiled for a high-level review of the inspections only. A full works proposal for the repair works and relining will be generated where applicable.

Summary of CCTV Completed

Data Follow - Up

Te Uku Project

XZW/FOHBOH/WDC

Te Uku Data - "Weekender"
(follow-up) May/June 2024

Note from Katie Lowes:

Here is a short analysis of data detailing weekend survey responses for the Te Uku Depot detailing WEEKEND ONLY DATA.

1. 76.4% local use.
2. 85.2% local and people on their way to Hamilton.
3. 6.1% Auckland and 'other'.
4. 14.1% of people were going to an "out-of-rated area". (Ngarūāwahia, AKL, Kirikiriroa/Hamilton).
5. 15.8% are from Raglan that has kerbside service and access to the manned site at Te Hutewai Road.
6. 8.7% Outlier behaviour (x3 assumed back to Raglan noted as suspicious behaviour, and 1x Te Akau, 1xTe Uku, x2 preferred not to say).

This generates findings that suggest 93.9% of usage is by locals near to the depot and at the very least within Waikato.

With only 3.5% being 'Aucklanders' and a subsequent 2.6% as assumed out of district 'vacation'.

We are very happy to be contacted for further analysis regarding this study,

Sincerely,

Katie Lowes

Count

5. Thanks so much for taking this survey! Please feel free to tell us anything that could be helpful here: (or type n/a and press submit)

(thematic analysis was used - can repeat if needed but will take time) Here is Raw data:

Sun 19th November 2024

Have come here because of the cover (shelter)

I come here because it's under shelter - I like the cover

Come here because the te mata one is always too full.

Wish it was a bit tidier !

I like the cover

Previous survey - participant did not go to Hamilton. Drove back to Raglan

Previous participant suspect money saving usage - drove back to raglan left large bags here

Silver van came into recycling depot, turned around and drove out towards Hamilton.

Suspicious behaviour

Nicer when it's a bit tidier !

It's often full and overflowing on a Sunday, I feel bad not being able to put my recyclables in the bins but next to them but I have no other choice

Just passing through, no comment

Te Uku Data - "Weekender"
(follow-up) May/June 2024

People dumping stuff that you can't recycle, would like it to be tidier and maintained
We often give the depot a clean because it's a real mess. People put stuff in all the wrong places. Sometimes the bins are overflowing. (I also saw the lady climb up onto the tray to get her tin cans into the slot - didn't look very safe, not particularly friendly for short people)

Fantastic service but not emptied enough. Sometimes we have to take our rubbish back home because there's no space for it. Once it gets a bit messy people just seem to dump stuff everywhere. There should be surveillance cameras around

It's never this tidy, it's always a tip! Everyone just dumps and drives away. Fees like a clean up has happened because we have arrived to do the survey. Normally only 2 bins for blue bags, not 3.

We only drop our rubbish off when we can see it's tidy, we often come and take stuff back because it's overflowing. It's usually much messier than it is today, it reaches to the edge of the tent. It's not emptied nearly enough. The cardboard is the worst. Large household items are left here for ages, only collected when I've called to complain. The rubbish gets blown over to the creek and our farm. Lots of black bags are put in the prepaid bags box. Rubbish flies down the road, I've asked many times for better fencing to be put in to contain mess. As neighbours we are very disgruntled, it's not fit for purpose. My suggestion is to put a camera up. It's too expensive to take stuff to xtreme waste so people dump it here.

It's usually a real mess, a horrible place to have to come. It's too small to service the area.

Sat 25th November 23

Na

Feel sorry for the people cleaning it up.

It's always a mess

A lot of commercial rubbish being dumped here. From out of town. He's sees cars that are sign written dropping commercial waste

Should have a camera here. People need to be caught.

Bags aren't cheap.

Used to only come in Tuesday, because that was the day they cleaned it so he could leave all his rubbish:

It's improved a lot over the last year.

Loves it

Te Uku Data - "Weekender"
(follow-up) May/June 2024

Wishes more people followed the rules.

You need to be on guard 24 hours a day.

Once a year or 6 months a free organic waste collection. Other regions have a free collection.

Great facility but usually is a pig stay, who ever is cleaning it doesn't do a very good job of it.

People aren't so the right thing.

Glad it's here so doesn't have to go to extreme it's a great lay out. Just always a tip

It's looking a damn sight better. It's a pleasure to come on the weekend now, before I've avoided it on the weekend

We surveyed this lady yesterday and she wasn't keen to do the survey again

It's great.

People are the problem. Making it a dumping ground. Not local people, main road people.

It's great to have somewhere local.

Having a gate with a tag for locals.

There are like 15 new houses within a km of this rubbish sight. So many more people in te uku using this facility. There needs to be more funding to clean it.

It's so much cleaner on a Saturday than it's ever been.

Need to get something for our rates.

Have blue bags at the te mata station.

People are abusing it

We would be lost without it.

Only that other people are "shits", people treat it like a dump and leave their crap everywhere.

We only bring our recycling because our landfill is picked up

Nah it's all good

It's awesome, it gets packed though. Would be good to have another plastics bin and cardboard because they get filled the fastest then it's overflowing and crap goes flying everywhere.

Coming to collect egg cartoons.

Have been told collections are on Wednesday and Friday so they come before collections to find egg cartoons

They said it's never been employed as frequently since we have arrived

Sometimes it's overflowing, especially plastics. Otherwise it's good but sometimes its not emptied enough

Te Uku Data - "Weekender"
(follow-up) May/June 2024

It's good since it's been redone

Really annoyed with people dumping.

Couldn't be better set up.

Always been a dump.

Great. I love it.

Works better than it was.

Make it bigger

Heaps of black bags

Uses it often. It's really good

Cleaner than usual.

Great Re model. But still

To small.

They are too short to reach holes.

I'm new i dont much but saw the one before and this one is better

Is having a hard day and didn't want to answer any more questions

Much better now!

Was good on Monday and now it gets worse and worse wait til you see it after the weekend.

The smashing bottles by the school isn't great, we have a people problem

I think it's awesome and certainly better than what is was before

Needs to be picked up more often as is very messy. Xtreme is too busy and too expensive these days. People dump stuff because they don't want to pay to dump stuff

What can we do with the lids.

It's always full! But I guess everyone said that!

Fantastic.

Zero waste have done a fantastic job ewith the cover and new facility.

It would be better if it was across the road and horrible that it's by the waterway.

Normally really full, plastic one is always full, needs to be bigger!!! A broom or a stick to push plastics down and clean up maybe?? Crushing lever or crank to save space on plastic. We would like a roadside pick up

Love the improvements, much better than it was. Council has not given us access to recycling bins yet as we are building in town and don't have full compliance on our fence so that is why I am using this facility. Maybe a camera would be a good deterrent?

Need a container for lids!! Much improvement than before, need signage to say we can put paper in cardboard.

Te Uku Data - "Weekender"
(follow-up) May/June 2024

It's been upgraded since I've been here. High wind zone out here quite a lot it gets blown about.

I probably have a months of recycling to do at home and I'm bad like that and I will use the truck to bring it.

Cardboard lady #2 collected two big pieces cardboard for garden

Collected x 2 dumped water containers for her garden (mini greenhouses)

Na

Use to live in te aakau and issues before this was built.

Now bring a bag full of work here.

People leave their stuff and they are lazy. Some people just don't give a shit and dump their stuff.

Needs to be emptied more, fills up very quickly so must need more servicing

It can get be overfull and messey some days

When you drop your glass in it just smashes dont know if thats a problem

Pictures to say what you can and can't recycle would be great.

Very handy to have it here. Good service.

There is a little Airbnb waste in here

Collection at home from our gate would be great - even if was just blue bags would be better than nothing.

A recycling point would be great.

Used to have blue bag spot.

Often is such a mess and health hazard, we still need this facility and it is great but needs to be serviced more, lots of dumping happening after weekend by out of towners

Close neighbour

I've bought horse bags down and tidied it. The people that come through are from Raglan and dumping them here.

2.5weeks in the blue bag!

The fishing boats crew need to out their stuff in the right places it's always us locals that sort it out

It's just not big enough.

Population expanded significantly.

Houses boomed everywhere.

Seems that this would have been suitable 20years ago,

Cardboard overflows

Bottles after weekends and events.

It needs to be checked off.

Dogs aren't chained up at night

Come home from night shift and there are dogs up here playing.

Te Uku Data - "Weekender"
(follow-up) May/June 2024

Short of picking them up from our houses which don't work, they expected us to maintain a townie policy overnight - leave on road people will hit it and milk cows at 5am and rubbish all down the road and roads not wide. Leave by the gate and they drive past it.

Bunch of lazy bastards.

Dogs found it.

Didn't work.

This emptied more often and we won't get the overflow

We are getting fly tippers

It looks really great here today - much better than it normally does for a Saturday

They need a larger plastic bin, surveillance would be good and stop people dumping crap. The landfill bins are good and enough but need at least another plastics bin

It's looking tidy today but isn't always. The plastics bin is often full then people just dump their stuff on the ground next to it

I often don't bring recycling cause I know that it will be full. Can we have double plastic space, maybe combine tins and aluminum and make plastics twice the size

Somewhere to put lids from plastics incase you've forgotten to take them off and put in a blue bag. The bins are hard to reach for short people. The trays fill up with water so would be good if they had holes to drain. The upgrades have been great, it's much better than it was. It's annoying when people dump stuff they shouldn't. The shade is annoying in high winds it's flying all around.

It's good compared to what it was. It's a shame that people are abusing it like they are.

It's been tidier the week the survey people have been here. We've seen builders dump stuff. The plastics is overflow quickly

And bins at te mata (landfill)

Te Mata recycling is really messey - scared of popping your tyre

Windy day rubbish flies everywhere

Going into our water and streams and onto the road and can be hazardous.

In te mata we need more cardboard caddies

More plastics and cardboard spaces needed as they fill up the most, way better than it was before though. Lids need their own containers as they end up all over the floor!!

Much tidier since you have been here. Plastics and cardboard get the fullest

Normally it's chocker

My son used to clear it - it has got better and concrete great and it looks good today but it's normally really messy

(follow-up) May/June 2024

People are going to come and dump stuff.
Plastic lids and we take them off and put them in.
People bring stuff that they shouldn't but they do.
We don't get picked up on the main road.
People are the problem.
Only way to catch them is go through it and find names on rubbish.
People that have stayed at Raglan are dumping here.
Before we had double on each side and now there is only one.
Not as big as when we had it before double and double.
Shelter is great.
This is probably the cleanest I've seen it.
If there were maybe a camera here it would be interesting to see that if people changed.
Our kids know what goes on at the recycling centre - behaviour it's about behaviour.
We have celebrating our TOP recycling here in Raglan people need to know about that.
We don't want to go to Raglan to do our recycling we want this place we want to keep it.
We tidy this place up we like it we want to have it nice our kids went to school here

Na

Wasn't going to leave cardboard because it was overflowing.

Most of the time it's fantastic.

Sometimes overflowing.

Plastics always overflowing.

Please empty more.

Only comes on a Saturday morning at 6am because it's too full on a Sunday but came today because he was at a party last night and someone said that extreme are emptying it everyday now. And that there are people working here to monitor it.

The plastics doesn't work - overflows.

It's good for rural people.

I use incinerator at home for paper and cardboard.

I bring my plastics in these bags because it's always full so I leave them here like this so it won't all fly away

Always notice plastic overflowing. Everyday! Could do with more storage for plastic

It would be lovely if it wasn't overflowing. It's regularly overflowing.

I do appreciate it.

It's great that I don't have to go all the way over to Xtreme Zero Waste.

N/A

We need to keep it for the community. More education is needed, like signage, to show people how to use it. Like telling them to wash and squash, to take off lids ect. I come down and clean up here sometimes because it's such a mess and I feel bad for the guys coming to collect it all. The holes for recycling can be hard to reach for us short people. People badly abuse this place. I know the rubbish bags are expensive but it needs to be treated with respect

It gets full quickly

It's great, I would love to have the food bins they have in town. It does get a bit manky here sometimes

Love to see blue bag collection at Te Mata. The community feels a bit hard done by that Waitetuna gets theirs collected and we don't even have a bin to drop ours into.

It used to be a shit hole and now it's not such a bad shit hole.
Xtreme Zero Waste is the worst run company I have ever known.
Haven't been here for a year.

Sometimes it's overflowing. Would be good to have land fill pick up at Te Mata

Already did the survey, not keen to do it again

It's good, sometimes it can be a real mess

All ready been surveyed, no new comments

It's pretty handy to have

It's great, would be good if it was twice the size as it fills up so quickly

The guy did a quick dump and run of a metal "thingamabob" maybe a car accessory(?) into the prepaid bag bin

Needs emptying more often, but we know extreme do a great job people do a lot of dropping of random things and they should take responsibility themselves

We really love this facility and use it to drop recycling and landfill on way home from family bach often as we can't leave things out for kerbside as we are not here in the week. We know many other families who use it this way also

I like the facility but I definitely think they need to do more collections. Not having rubbish facility in te mata is a real hassle

Marae said to drop recycling here

(follow-up) May/June 2024

Sometimes I have to turn around because it's so full there's no space. It's great that it's covered now. It's great that it's here, much more convenient than going to Xtreme.

Needs to be emptied more often. The trays are handy

I was here at 5:30am dropping off my recycling and saw a guy dropping off his black bags

It's great. It's annoying that some people just dump their non recyclables, maybe security cameras would help with that

No my husband usually does the recycling. Seems nice

Needs more collections, always overflowing, mainly plastics and cardboards. Glass and tin, skip bin are always ok.

Would love a kerbside collection okete road, bridal creek road.

They don't service it enough. They clearly don't do it when they say they will.

I use this as a drop off on my way home to Te Uku after cleaning air bnbs

Xtreme are bloody useless.

When this was put up it felt like a really good idea. Needs at least one extra clearance per week.

Xtreme don't put in as much time as they need to.

When it's like this I don't want to leave the stuff. I will have to come back another time

Forklift could lift dedicated containers to make it easier for the collection team.

They need one more massive plastic containers

This is definitely so much nicer than I have ever seen it before. In the history of the Te Uku rubbish.

We come out from Waitetuna to do recycling, often is overflowing, normally can't fit our recycling into here on the weekend. Feel bad to just add our plastics and recycling into everyone else. It's obvious it needs clearing more often!!

Dropping recycling from family wedding

It's their problem.

Monitor what is taken away?.

Xmas it's basic data and it doesn't seem to equate to what happens /collections.

Been into Hamilton for the day and dropping rubbish from home on way back home to Te Mata, dropped black bag same as other day.

Emptied more often

Cameras would stop dumping
